- A recess period of 25 minutes is given to students during the school day.
- The school hours are 7:15am - 12:30 pm 
- The class period schedule will be organized in a way that allows for 3 different timings for the recess period in order to reduce the number of students in each period. For example, the recess break will start right after the 2nd period for some divisions, after the 3rd period for other divisions and after the 4th period for the rest of divisions).
- Schools will rearrange and space out desks to ensure social distancing is maintained. The school theatre and gym may be used to provide more space for student seating.
